### MOTION

We direct the administration to immediately initiate the implementation of the pre-payment of parking meters and the extended evening hours features on city parking meters and implement the pay by phone feature as soon as possible.

Vice Mayor David Mann

## **STATEMENT**

Since the city has increased parking meters hours and committed funds to increase enforcement of parking meters, we believe the city should also utilize every tool at its disposal to make complying with these new rules easier. As the system currently stands, citizens and visitors to the city are being forced to return to their vehicle when meters turn on, or throughout the evening to ensure they are legally parked.

Most of us assumed that extending meter hours until 9:00 p.m. in OTR and the CBD and charging for parking on Sundays from 2:00 p.m. on would be accompanied by the ability to pay for more than two hours at a time in the evening and to pay ahead of time when pulling up to a meter before meter hours have begun.

The Administration has reported to us that this change will take one week's time to implement. This motion directs them to begin that process. Additionally, this motion directs the administration to implement the pay by phone features as soon as possible.
