MOTION

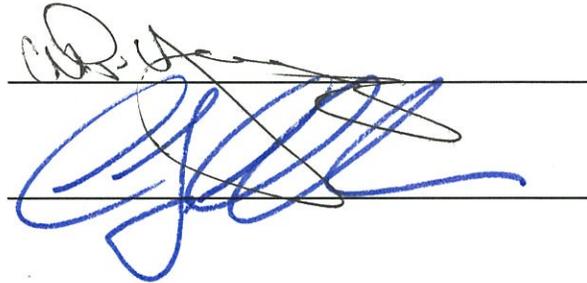

WE MOVE that the Administration provide detailed quarterly reports on the City's SBE program to City Council. The reports should model the previous inclusion reports provided by the Administration, which included, among other information, a detailed listing of contracts awarded within the report period. For the Administration's reference, we have attached an example of such a report.

Councilmember Yvette Simpson

Charles Winbourn

STATEMENT

As the City's new SBE program begins to develop and improve inclusion of small businesses in the City's contracting process, Council has an interest in understanding and assessing how those efforts are carried out. In this way, Council will be able to provide valuable feedback based on concerns and questions raised by interested constituents. A detailed quarterly SBE report will aid Council in knowing where the City can improve in its inclusion efforts and where it is succeeding.
