

201600411

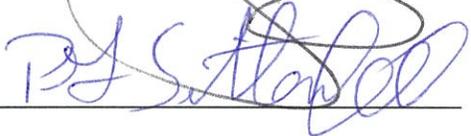

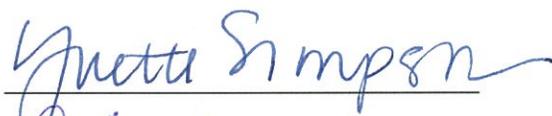

MOTION

March 14, 2016

We MOVE that the Administration make all necessary safety repairs to the deteriorating safety barrier on Eden Park Drive between Fulton Ave and Martin Drive with funding from the Capital Acceleration Program in calendar year 2016.

Councilmember Chris Seelbach

_____

STATEMENT

This location currently has 4 different heavily damaged sections of the safety barrier along a winding part of the roadway. There is internal disagreement in the City Administration as to who is responsible for maintaining the safety of the public. This motion provides policy direction from Council that the Capital Acceleration Program is an appropriate use of funds to ensure this roadway remains safe and open to the public, and that it should be repaired in calendar year 2016 to maintain the safety of members of the public.
